

chinese industrial espionage technology pdf

China is alleged to have begun a widespread effort to acquire U.S. military technology and classified information and the trade secrets of U.S. companies. The Chinese government is accused of stealing trade secrets and technology, often from companies in the United States, to help support its long-term military and commercial development.

This report documents the GhostNet - a suspected cyber espionage network of over 1,295 infected computers in 103 countries, 30% of which are high-value targets, including ministries of foreign affairs, embassies, international organizations, news media, and NGOs.

Tracking GhostNet: Investigating a Cyber Espionage Network

What's wrong with China setting quotas for self-sufficiency? For one, such quotas violate WTO rules against technology substitution. Made in China 2025 lays out targets for achieving 70% self-sufficiency in core components and basic materials in industries like aerospace equipment and telecommunication equipment by 2025.

Why Does Everyone Hate Made in China 2025? | Council on

In recent years, the Business History Conference has sprouted several interest groups that have coalesced around perceived needs. The first two, "Women in Business History" and "Business Historians at Business Schools," meet informally over lunch at the annual meeting to discuss issues in the profession and to network.
